An event designed with style has atmosphere and drama. It gives your party an eye catching element that creates the wow factor. Your imagination is only the beginning. Our professional staff will help you make it a reality. Celebrating With Style is our passion, we think, breathe, and live it.

Under the leadership of Chet Fortney and Rene Martinez A1 Party has become a nationally recognized event rental company. A1 Party, a full service tent and event rental company is a one-time TSE Gala Award Winner, a 4-time nominee and has earned a spot on the nation's list of Top 30 Party Rental Companies multiple times.

A1 provides equipment and services to most of the significant sporting and entertainment events in Southern California. Their client list includes some of the most recognizable event production companies, corporations, venues and professional sports teams in the Los Angeles and Orange County markets.

Chet and Rene believe in a hands-on approach to their business and have avoided the temptation to expand into multiple locations choosing rather to serve all of LA and Orange counties from one facility. Nostalgic turn-of-the-century industrialism is the core essence of this collection's design. Inspired by the locomotive truss bridges of yesteryear, the frames of each piece don a repeating X pattern while the distressed wood tops of each piece are reminiscent of artisan craftsmanship.

Winner of the
2012 Special Events
Magazine Gala Award
'Best Tent Installation'

**SPECIAL EVENTS
GALA AWARD
WINNER**

Our tenting division's veteran installers bring top-tier skills when it comes to design, deployment, and installation of our clear span structures. So much so that in 2012 A1 Party was accredited with the prestigious Special Events Magazine Gala Award for Best Tent Installation. A few of the reasons we were chosen was the scope and difficulty of the manual installation as no heavy equipment was allowed on the property. The tent was installed over the pool, around the trees, and attached to the home, which required custom panels and hardware. The decision to have a clear top was also a last minute request. Our in-house manufacturing department produced the 12,000 square foot top while the installers were simultaneously putting up the frame, ultimately completing the job ahead of schedule and on budget.

A-Frame Structures

The Tent Hall-TH series structure is a modular system, and the length can be increased or decreased by 5m bays. The frame adapts hard pressed extruded aluminum 6061/T6, cover and sidewalls adopt double PVC-coated polyester textile, which is flame retardant.

Super versatile and modular, our frame tents can accommodate up to 40 feet wide and unlimited lengths. They come in 8', 10' and 12' leg heights and are available with traditional scalloped or modern valances. Thanks to our in-house manufacturing, our tops can come in a variety of different colors as well as striped options and high quality clear top material.
